

Lightstreams Glass Tile Shell Beach

Defining Beauty in Glass Tile

Shell Beach consists of various patterns and random shapes of Lightstreams' Jewel Glass Accent Tiles that are mesh-mounted on 12 inch strips. Shell Beach is a wonderful accent for swimming pools steps, swim-outs, spa benches, and pool floors. They look like sparkling jeweled sea shells that have washed up onto a sandy beach.

These mesmerizing accent tiles are sold by the linear foot, with a 10 linear foot minimum order.

Please note it is inherent with hand-crafted art glass tiles that each tile, even within the same style, be unique. No two tiles will look exactly alike. These photos are provided as a guide to the general look of each style. All stated sizes are nominal.
